

PRO 7150

TomTom PRO 7150

Get a clear view on efficiency with the large 5 inch screen of the PRO 7150

The TomTom PRO 7150 is your perfect partner on the road. Designed to save your business time and money, this easy-to-use device helps your drivers perform at their best and stay safe behind the wheel.

Boost your drivers' efficiency with smarter navigation

With the smartest routes and state-of-the-art maps, the TomTom PRO 7150 gets your drivers to their destinations in the best possible time.

1. Smart Routes

- IQ Routes™ uses real speed data to calculate the fastest route for any time of day or day of the week, saving you time and money on fuel.
- TomTom PRO 7150 calculates routes up to one hundred times faster, to get your drivers on their way in no time.*

2. Lifetime Traffic & Map Updates**

Enjoy a lifetime of easy driving with two great features from TomTom. Lifetime Map Updates guarantees you receive four new editions of your TomTom map each year to ensure that you are always navigating with the industry's most up-to-date map. And, Lifetime Traffic Updates automatically sends real-time updates to your TomTom, so you can steer clear of traffic delays and take the fastest route possible to your destination.

3. Eco Routes

Driving with these more fuel-efficient routes saves you money as well as reducing your impact on the environment. Your device can show you the route which has a lower environmental impact, using the driving data of millions of TomTom users.

* Compared to GO 7000

** You receive non-transferable traffic data and up to four non-transferable map data updates per year until the product's useful life expires or TomTom no longer receives map or traffic updates from its suppliers, whichever is shorter. Details and terms at www.tomtom.com/legal. Lifetime Traffic updates are available in the US and Canada only.

A larger screen for effortless navigation and maximum safety

With the large screen you get clear visual instructions while navigating and easy to use WORKsmart functions to administer trips and jobs while on the road.

- Easily scroll through menus with the new user interface and capacitive Fluid Touch screen.
- Text-to-speech technology gives drivers spoken information, like directions, traffic updates, and even reads out messages and work orders – so they can focus on the road ahead.
- The Help Me! menu gives details of local emergency services at the touch of a button: from hospitals to roadside assistance.
- Hands-free calling allows drivers to use their mobile phones in complete safety and keep in touch while on the road.
