

PRO TRUCK 7150

TomTom PRO 7150 TRUCK

Navigating your trucks is easy with the TomTom PRO 7150 TRUCK. Save time by avoiding road restrictions, detours and dead ends - meaning efficient routing and accurate scheduling. Pair the device TomTom WORKsmart™ fleet management and track your vehicles, dispatch jobs, improve efficiencies and register working time.

The easy to use, 5" screen device makes navigating your trucks even easier giving clear visual instructions to guide your drivers around restrictions quickly and safely.

Arrive Faster and Safely with Built-in Vehicle Restrictions

Whether your fleet is comprised of tractor trailers, box trucks, buses or vans, the PRO 7150 TRUCK delivers the safest and most-efficient navigation experience by harnessing up-to-date TomTom maps and the power of our award-winning portable navigation devices. Packed with vehicle type and safety features, the PRO 7150 TRUCK:

- Favors main roads over secondary roads
- Avoids sharp turns and U-turns
- Includes maps with extensive collection of truck attributes such weight and dimension limitations and load characteristics such as HAZMAT restrictions
- Warns for restrictions and dead-ends
- Delivers clear and safe instructions via a 5-inch touch-screen
- Offers advanced lane guidance, text-to-speech and hands-free calling to enhance safety

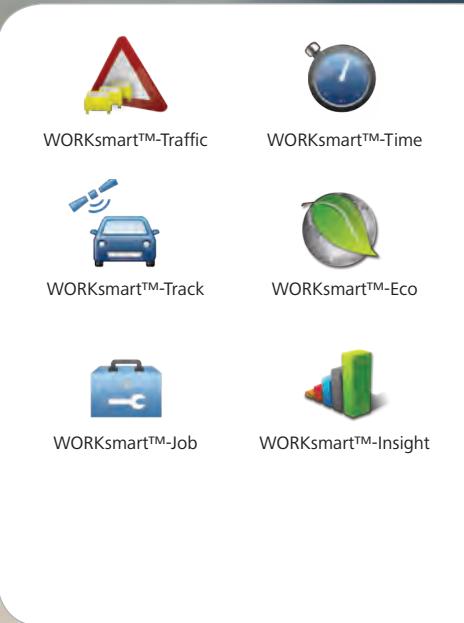

Maps Designed with Restrictions in Mind

TomTom has partnered with ProMiles*, an industry leader in transportation solutions, to deliver the most comprehensive map attributes for commercial vehicles in the North American market today. The PRO 7150 TRUCK includes nationwide U.S. map coverage with truck information encompassing the federal and state highway networks, and full, last-mile restriction coverage in 3,100 truck-relevant municipalities situated in more than 1,200 counties. In Canada, the PRO 7150 TRUCK includes nationwide map coverage and truck-specific coverage for the complete Trans-Canada Highway and provincial highway network, as well as more than 150 truck-relevant municipalities.
