

PRO 9150

TomTom PRO 9150

Get a clear view on efficiency with the large 5 in/13 cm screen of the PRO 9150

The TomTom PRO 9150 is your perfect partner on the road. Designed to save your business time and money, this portable fleet management solution delivers a true out of the box experience requiring no installation.

Boost your drivers' efficiency with smarter navigation

A portable fleet management solution with the smartest routes and state-of-the-art maps, the TomTom PRO 9150 gets your drivers to their destinations in the best possible time.

1. Smart Routes

- IQ Routes® uses real speed data to calculate the fastest route for any time of day or day of the week, saving you time and money on fuel.
- TomTom PRO 9150 calculates routes up to one hundred times faster, to get your drivers on their way in no time.¹

2. Best Maps

- One more million miles of road in the US
- Use TomTom Map Share™ technology to make corrections to your maps, and benefit from thousands of others made by TomTom users every day, our maps are broader and more detailed than ever.
- Enjoy a lifetime of easy driving with two great features from TomTom. Lifetime Map Updates² guarantees you receive four new editions of your TomTom map each year.

3. Eco Routes

Driving with these more fuel-efficient routes saves you money as well as reducing your impact on the environment. Your device can show you the route which has a lower environmental impact, using the driving data of millions of TomTom users.

¹ Compared to GO 9000

² You receive non-transferable traffic data and up to four non-transferable map data updates per year until the product's useful life expires or TomTom no longer receives map or traffic updates from its suppliers, whichever is shorter. Details and terms at www.tomtom.com/legal. Lifetime Traffic updates are available in the US and Canada only.

A larger screen combined with portability for effortless navigation and ease of use

With the large screen you get clear visual instructions while navigating and easy to use WORKsmart functions to administer trips and jobs while on the road. Requiring no installation this solution effortlessly moves from one vehicle to the next.

- Easily scroll through menus with the new user interface and capacitive Fluid Touch screen.
- Text-to-speech technology gives drivers spoken information, like directions, traffic updates, and even reads out messages – so they can focus on the road ahead.
- Completely portable and as flexible as your mobile workforce - simply plug and go.
- The Help Me! menu gives details of local emergency services at the touch of a button: from hospitals to roadside assistance.
- Hands-free calling allows drivers to use their mobile phones in complete safety and keep in touch while on the road.

LIVE Services-ready¹

When you subscribe to WEBFLEET®, you can access these fantastic LIVE Services straight from your PRO 9150:

- HD Traffic® for live updates on traffic incidents, estimated delay times and alternative routes to help your drivers avoid delays.
- Lifetime Traffic Updates² automatically sends real-time updates to your TomTom, so you can steer clear of traffic delays and take the fastest route possible to your destination.
- TomTom Local Search with Google for useful local information at your drivers' fingertips.
- With Fuel Prices, you'll never pay more than you have to for gas. TomTom Fuel Prices covers thousands of preloaded POI gas stations in the United States and Canada.
- Weather forecast sends the latest forecast straight to your drivers' devices, so they're always prepared for changing conditions.

¹ LIVE services are available in US and Canada and require a subscription to TomTom WEBFLEET.
